Allowable Subject Matter

1. Claims 1-18 and 21-27 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior art cited by the applicant, Price (US 5,151,217), teaches bicontinuous microemulsions containing a polymerizable surfactant. However, the reference teaches the formation of solid materials, including porous particles, for separation applications. The reference gives no guidance to use the microemulsions on a support which is suitable for ink jet printing. Thus, the applicant's claimed ink receptive substrate suitable for use in ink jet printing provides a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
